## Preface

The following chapters are based on WMF-rulebook (chapters 3.5.1 / 3.5.2 / 3.5.3 / 3.6 and 3.7) and the decisions and recommendations of WMF Technical Committee, WMF Executive Committee and EMF Executive Committee.

## <u>Courses</u>

The Organizer requires a minigolf facility with 2 x 18 lanes, preferably two different minigolf systems. For European Cup only 1 x 18 lanes are required. The lanes basically need to fulfil the rules and regulations of the WMF Rulebook.

Applications with minigolf facilities of solely 1 x 18 lanes can be accepted as long as the schedule of the tournament due to the expected number of participants can be met.

If there are more than one application for the same international championships the venue with  $2 \times 18$  lanes should be preferred.

Courses should not be too easy to play, so that they are selective enough for International Championships. Changes of courses after the personal inspection of the responsible sport officer and especially after the Nations Cup need the prior approval of the responsible sport officer.

## Course approval

The final course approval will be done during a personal inspection of the responsible sport officer in autumn the year before the Championships. If necessary, some detailed changes are worked out.
